

Why Visit China?

With a recorded history of over 5,000 years China is one of the oldest civilizations in the world. Home to the world's largest population, China had remained until recently an ancient and mysterious land little known to the western world. Now millions of visitors annually are discovering the allure of China. From historical to modern wonders to its beautiful natural landscapes China has emerged as a top travel destination. There never has been a better time to experience the wonders of China.

China has invested more than \$20 billion in constructing facilities, improving transportation, enhancing city telecommunications and developing environmental attractions. The money invested in building architectural wonders and enormous natural sites like the 'Water Cube', the 'Bird's Nest' stadium and the Olympics gardens are just some of the places included in our tours.

Beijing, the capital of China, has become a popular destination for Americans. Home to 22 million Chinese, the city is a tribute to China's rich history, culture, growing economy and spectacular architectural attractions. And with an unprecedented pace of Olympic and non-Olympic development, travelers, more than ever, are invited to visit China with us.

Customize Your Travel

As the trusted leader in quality custom tours to Asia, often our clients come to us with requests for modified or completely custom itineraries. China Discovery Tours excels at providing your family or organization with flexible and convenient travel plans comprehensively tailored to your exact specifications.
